

Pretty Hustlaz: The Sin City Edition

They say its a mans world but what happens when a woman grinds harder? For Gia Merlow, the picture was painted clearly when she singlehandedly took over an entire city with one bold move. Las Vegas belonged to her and she had no intentions of giving it back that is until she crosses paths with a man that believes everything she has worked hard for and built up belongs to him. What goes up must come down and unfortunately for Gia someone she loves is gunning for her empire with marksman aim. If she makes one wrong wager she will sacrifice it all and if she can help it, she doesnt plan on giving up any of her poker chips. Join Blake Karrington and A. Marie Johnson on this sexy tale of power and the deadly sins.
