

Stars and Planets (Kingfisher guides)

This is an exciting new series, building into an extensive library of knowledge for tomorrow's young scientists. Lively and accessible, each of the 10 volumes focuses on a major area of scientific knowledge and draws the reader into the dynamic world of the modern scientist. This volume contains nearly 300 major articles in all, giving full coverage of the physical, chemical and biological sciences. It is accurate and up-to-date, covering the latest discoveries, events and ideas. Its expert authors capture the excitement of science, and all the text are checked by specialist consultants. It also features over 1300 illustrations - carefully selected photos and specially commissioned drawings and diagrams.
