

## A Touch of Lilly

Ex-Chicago detective LILLY DANGELO has a secret she doesn't share with anyone. A master of the one-night stand, she's given up ever finding a soul mate and thrown herself head first into her career. That is, until she captures the wrong alien. Kidnapped and sold into the sex slave trade, she's shipped into deep space. Barely escaping with her life, Lilly now travels the galaxy working as a bounty hunter using her secret talents to bring down criminals and seeking revenge on the one male who ruined her life. Agent DALLAS SAWYER works for deep spaces version of the FBI. After a disastrous mission that left several of his team members murdered, a president executed, and Dallas near death, he's determined to take down the assassin targeting government officials. When a sexy human female gets between him and his goal, Dallas and his alien partner find themselves on the receiving end of a passionate night they won't soon forget and a proposition that may very well blow up in their faces. Because in deep space true love can happen with just a touch. \*\* Reader Advisory: This book contains graphic language, threats, general cursing, unpronounceable alien names and a whole lot of passionate sex including a little bondage and some hot m/f/m lust.
