

Alone in the Night

What do you do when you're all alone in the night and millions of miles from home?

Security Chief Janet Bryer made a costly mistake that sent her as far away from Earth as her superiors could manage and she's miserable. Low gravity, crummy food, and a horrible death behind every bulkhead makes her hate life. Stuck on Ganymede Station, a veritable retirement community, Janet didn't think her life could get any worse. Until she found one of her officers dead in her office. With a mad man hunting her down, she'll have to learn about her new home and trust people she regards as strangers to stay alive. Will the people she dismissed and ignored trust her enough to keep her safe? Or will this be her downfall? *note, this is the same universe as Cybergensis.
