

The Search For Skylar: Charlie Wright Thrillers (Book One)

Charlie Wrights life is plummeting into chaos. A recent divorce renders him helpless in an attempt to hold his family together. A weekend with his children is just what he needs to prove to his ex-wife Cassie that joint custody is the best option for everyone. Tragedy strikes one Friday afternoon after school. Charlies daughter Skylar goes missing. Every second that passes is a second wasted, and Charlie falls into a world of desperation and panic. Skylar has vanished into thin air the only evidence that she was at his house is her shattered cell phone found in the alley. With nothing to go on, the police label Charlie as a person of interest in the case. They harass and question him, basing their investigation around hearsay. His reputation quickly becomes tarnished, and he learns that the only way hell find his daughter is if he takes matters into his own hands. With the help of his best friend Mary, he searches for Skylar, keeping hope that she is still alive. The guilt Charlie feels for not protecting Skylar is his driving force, and he will stop at nothing to find out what happened to her.
