

Lone Wolf Rising (Winters Saga Series Book 1)

Vampires, witches, and werewolves, oh my! Two desirable guys, one lost girl, enemies at every turn, and family secrets that threaten to break the ties that bind. The need for vengeance can drive some people to desperation, others to depression, and some go insane with the need to find justice. The desire to avenge the murder of her parents drives Rebecca to make life changing choices that impact her and the people she loves. As a human she is a struggling high school student who uses music as a coping mechanism. As a werewolf she has power that positions her to take a bite out of the crime that destroyed her childhood. When the two combine, her life explodes. While Rebecca attempts to find answers, she is put into a position of authority, one that persuades her to join forces with a Protector who poses as a pretend boyfriend. As this relationship becomes real, the rogue wolves make an attempt to claim the alpha throne. Rebecca's life is about to shatter, her beliefs will be tested, and her world will never be the same.
