

## Right Ascension

Set in the year 3040, Right Ascension examines mankind's place in the Universe, how we ascended to that lofty position, and the horrifying price of that ascension. Humanity's position of political and technological dominance within the galaxy is suddenly shattered when a sleek alien vessel arrives unexpectedly at Earth. Admiral Daniel Atgard and the crew of the Apocalypse embark on a mission to find these enigmatic aliens, but the focus of the mission quickly turns from finding answers to exacting revenge. Meanwhile, a belligerent species of reptilian warriors, seeking to avenge a previous defeat at the hands of the human-controlled United Confederation of Planets, takes this opportunity to plan an all-out assault on Earth. Faced with overwhelming odds and the terrible knowledge of mankind's most horrifying secret, Daniel must choose between honor ... and humanity's very survival.

[\[PDF\] The Key-Locke had led the posse for miles through the desert, but now Matt Keelock was growing desperate. He was worried about Kristina. His trip to the town of Freedom for supplies had ended in a shootout. If caught he would hang. Even though Kris could handle a horse and rifle as well as most men, the possibility of Oskar Neerland's finding her made Matt's blood run cold. He knew the violent and obsessive Neerland, publicly embarrassed when Matt had stepped in and stolen Kris away, would try to kill them both if given half a chance. Matt tried to convince himself that Neerland had returned to the East. But Matt was wrong. Miles away in the town of Freedom, Oskar Neerland was accepting a new job. In his first duty as marshal, he would lead the posse that was tracking down Matt Keelock. From the Paperback edition.](#)
