

Dark Visions

Take three of the leading names in contemporary horror writing, commission one-third of a books worth of stories from each, and the result is DARK VISIONS. Stephen King leads off with three stories, including Sneakers, about a very unusual haunting, and Dedication, one of the most powerful and unsettling of all his works. Dan Simmons pays homage to Philip K Dick with Metastasis, one of three highly accomplished stories. And George Martin rounds off the book with the brilliant werewolf novella, The Skin Trade. DARK VISIONS is a brilliantly original showcase from three masters of the macabre.
