

# Deadlift

Deadlift is a weightlifting term that refers to the action of lifting a weight from the floor to a standing position, gripping a bar. ?? David Lowe is currently performing the heaviest unrecorded deadlift, performed outside competitions rules, or any rules, by holding the severed cable of a thousand-pound hotel elevator containing his wife and an undetonated bomb, while a killer in a sackcloth mask looks on, and a hit man holds a loaded gun to his head. ?? David is no superhero, he has no special abilities other than mere human strength and the will to save his wife. Hes been holding the elevator for one minute and thirty-six seconds, bloodying his hands, tearing muscle fibers and cracking bones. ?? But push him to his limit and hell dig deep, find more. Because when everything is on the line, its not about muscle anymore its about heart...and never, ever, giving up on what you love.?
