

Rain of Ash: Skydancer Book 1 (The Zyne Legacy)

An inherited secret. An ancient rival. A magical Legacy. Briana Spurrier turned her back on her heritage as a reincarnating witch to chase her dream of being a concert pianist. On the eve of her greatest success, a tragic accident calls her back to her small town island roots, and a spell cast in her grandmothers dying moments opens her to Oracle powers shes spent her whole life trying to blot out. An enemy of old has surfaced, hungry for vengeanceand her soul. Unprepared and untrained, Bri must harness the magic buried deep within her before it drives her mad, or the demon of her past will hunt down everyone she holds dear. Which will break first her heart, or her mind?
