

## Desert Pigeons

The frailty of life is most evident at its last breath. VH Desert Pigeons is a high-octane sixteen page SHORT STORY. It contains graphic violence, harsh language and has a creep factor that may keep you up at night. This story is in no way suitable for children of any age, not even the adult ones.

Synopsis: Far from home, three eco-edgers embark on a road trip. None return.

For those of us out west, we know the feeling of being on desert roads that seem to lead endlessly to nowhere. Roads where the imagination tends to run wild. The story captures that feeling, taking the reader on a wild ride. ---Damian P. Gadal (VINE VOICE)...it left me, literally on the edge of my seat. ---KLSI would recommend this to anyone who loves good writing. I love this author. I've only found 3 books written by him and I crave more. ---Kerry Haunting! This book scared the crap out of me! ---John R.
