

Orb Sceptre Throne: A Novel of the Malazan Empire

The epic new chapter in the history of Malazthe new epic fantasy from Steven Eriksons friend and co-creator of this extraordinary and exciting imagined world. Darujhistan, city of dreams, city of blue flames, is peaceful at last; its citizens free to return to politicking, bickering, trading and, above all, enjoying the good things in life. Yet there are those who will not allow the past to remain buried. A scholar digging in the plains stumbles across an ancient sealed vault. The merchant Humble Measure schemes to drive out the remaining Malazan invaders. And the surviving of everything, a thief in a red waistcoat and of rotund proportions walks the streets, juggling in one hand custard pastries, and in the other the fate of the city itself. Far to the south, fragments of the titanic Moons Spawn have crashed into the Rivan Sea creating a series of isles...and a fortune hunters dream. A Malazan veteran calling himself Red ventures out to try his luck and perhaps say goodbye to old friends. But there he finds far more than hed bargained for as the rush to claim the Spawns treasures descends into a mad scramble of chaos and bloodshed. For powers from across the world have gathered here, searching for the legendary Throne of Night. The impact of these events are far reaching, it seems. On an unremarkable island off the coast of Genabackis, a people who had turned their backs upon all such strivings now lift their masked faces towards the mainland and recall the ancient prophesy of a return. And what about the ex-Claw of the Malazan Empire who now walks the uttermost edge of creation? His mission the success or failure of which the Queen of Dreams saw long agois destined to shape far more than anyone could have ever imagined. At the Publishers request, this title is being sold without Digital Rights Management Software (DRM) applied.
