

Taken! 5: Young Love

Couples meet in many ways, but when beautiful young, Jessica White awakened to find herself naked and tied to a bed, the last thing on her mind was romance. However, terror soon morphed into an intense fascination with her captor and her innate understanding of human nature allowed her to see past his actions and into his heart. Meanwhile, Jessicas father was being threatened by a serial killer with a personal grudge. But Dr. White is in luck because his daughters made a new friend, and he may be the only thing deadlier than the man that stalks him.
