

Prince Hohenstiel-Schwangau Ffine at the Fair Pacchiarotto, Etc (Classic Reprint)

Excerpt from Prince Hohenstiel-Schwangau Ffine at the Fair Pacchiarotto, Etc

The spectacular side of the C?sarian idea has always had a peculiar fascination for the French people. The nation tracing its birth more directly than any other of the younger nations of Europe to the old Roman founts of modern civilization was the natural heir of the political tendency impressed so mightily upon the world by Julius Caesar, the conqueror of all Gaul. Yet, ever since the Frankish Charlemagne steered the course of medi?val Europe by the star of Imperialism, and to the poets and popes of Italy, to Germany, Austria, Russia, England herself, descended some contagious political influence shed by the splendor of that auspicious, baleful star, France seems ever to have felt its influence most on the side of grace and social comeliness. Not only were the humanitarian and the ideal-ceremonial aspects of Imperialism the lures by which the modern C?sars, Napoleon I. and Napoleon III., were able to tempt the French nation successfully; but both of these exploiters of the dream of world-domination were themselves tempted by the same fair lures they employed. The more sincere they themselves appeared to be in their desire to attain the social good, the more successful they were: in their domination.
