

First Aid for the Basic Sciences, Organ Systems (First Aid Series)

Zero-in on what you must know to excel in medical school and ace your course exams and the USMLE! From the authors of First Aid for the USMLE Step 1 comes this comprehensive summary of essential basic science organ systems covered in the first two years of medical school. It provides the background you need before reviewing for the board and distills important course material down to easily understood parts.

Features: Emphasizes the major basic science concepts taught in medical school. Covers the high-yield topics and facts tested on the USMLE. Provides a practical framework for learning basic sciences by organ system. Written by top students who aced their exams and the USMLE.

Organized in the same manner as First Aid for the USMLE Step 1 to facilitate cross-study. Packed with hundreds of full-color images and tables. Great for PBL and integrated curricula. Use in conjunction with First Aid for the Basic Sciences: General Principles for a complete review of basic science covered in the first two years of medical school. Visit: www.AccessMedStudent.com and www.FirstAidTeam.com
