

From the Journal of Richard X: The collected adventures

Richard X is a psychopath - but other than that - hes a pretty likeable guy! This is a collection of the first six of Richards seriously warped life lessons, along with an introductory poem available only with this collection. Mixed with a back story from his own childhood, Richard seeks to convey his interpretations of lifes big lessons that he learned as a child, but many people have still failed to grasp. Richards ABCs is his warped revision of a basic alphabet poem, outlining the core of his demented thoughts. In Tiny Bubbles a group of teenagers go well above and beyond the norm on their deep sea fishing trip, and Richard feels the need to provide them with a very grounded lesson in human and animal behaviors... In Of Ropes and Rubber Bands Marsha deceives her best friend and takes advantage of her trusting nature. Her plan had worked flawlessly, except for the minor fact that Richard heard her delivering her parting shots. Too bad for Marsha, shed just become the latest name on Richards list... In Always Be Prepared, a landlord learns that its not nice to take advantage of your tenants, especially if their unknown friend named Richard finds out about it. But tonight, its not only the landlord who has to worry about remembering life lessons... In The Price of an Innocent a drive-by shooting takes the life of an innocent child along with many others. This time, Richard saw the incident himself and his decision for retribution came immediately. He had a plan to extract just what he thought was needed to reward the shooter for his actions... In Spur of the Moment Richard learns of another serial killer stalking the area alongside him. But Richard believes this new individual is killing for no good reason, and therefore makes his list. Drawing from incidents he witnessed in his youth, Richard has devised a novel method to reward his new friend... In Careful Guidance Richard is working with a man

who enjoys using fear to play with other people, to catch them off their guard. Richard believes he is even better at this game, and he has plans to see if he cant teach Wally a permanent lesson in carefully guided fear...
