

## White Holes: Cosmic Gushers in the Universe Paperback

The scientific and intellectual community has been captivated by the prospect of black holes - invisible bodies in space that consume matter ranging from dust to whole stars. But in the dramatic fashion in which new evidence defies orthodox explanation, attention is being turned to even newer objects, white holes, cosmic gushers which may be an answer to our universes creation. Author: John Gribbin Publisher: Delta Books, copyright 1977, Second Delta Printing, April 1978
