

Harry Potter Spells and Potions Science Kit Astronomy SH508 (Harry Potter Hands-On Science Activities, SH508)

In this spellbinding kit, your child will perform mesmerizing experiments that will take them into the world of Harry Potter. Along with an illustrated, step-by-step activity guide, they'll receive special (and safe) items to complete each activity. Each activity is fun and educational! The Harry Potter Activity Kits have been honored by The Oppenheim Toy Portfolio and Parenting For High Potential Magazine! They are a great item for any fan or collector. The activities within are a great way to get children to enjoy learning about subjects like science. They can easily be used at home or in the classroom. This kit is #508 Astronomy. Lab binder activities are: Scope it Out, Wobbly World, Starry Skies, Solar System Model, Sundial, Moon Phases Other contents include: Biconvex Lens, Biconcave Lens, 2 Telescope Pattern Sheets, Beads, Constellation Map, Big Dipper Card, Lenticular Card (has moon phases on one side and a photo of Harry Potter and his friends in a boat outside of Hogwarts on the other) Every activity kit comes with lab binder pages that describe the experiments that can be done with the included materials. They also explain the reasons why each experiment worked. This is a highly informative booklet for students of all ages!
