When we were children, we looked upon the world as children. We behaved as children. We loved as children. We placed our trust in others. As children. And when the time came for us to grow up, we were told to put childish things away. But for some of us, that didnt come so easily... Situated in a scenic suburb in Northern Michigan, lies the Lyndon-Marshall Psychiatric Hospitalor The Asylum as the locals call it. And this institution has seen its fair share of clients, ranging from celebrities who were unable to handle the anxieties of fame, to the average American who was dealt a bad hand at life. Lyndon-Marshall is known as the best of the best. But even at its best, an unfortunate reality is that some patients return. Casey Bellevue was not unlike the average patient who need psychotherapy. He wasnt diagnosed as psychotic or even severely depressed. There was nothing about him that made him exceptional. He wasnt on his fifth, ninth, or fourteenth visitthis was only his second. But for some unknown reason, he chose to return with a gun. He has no demands. No explanation. And no motive. A cocktail of mystery for Assistant Chief Khloe DNasia Johnsson as she attempts to deescalate what has become a very hostile situation. And as she uncovers the identities of the individuals he holds captive, she also learns their stories and realizes that the greatest challenges these young adults face may not be the gunman that stands before them. Its a bizarre, chaotic, volatile situation. And to further complicate matters, Bellevue has vowed to transform this dire situation into a deadly one, and has given Chief Johnsson a non-negotiable deadline. One hour.
