(W) Warren Ellis (A) Gianluca Pagliarani
Where did the space heroes go to die? A major new series by Warren Ellis, the writer who reinvented science fiction in comics, in the alternate-world style of the award-winning Ministry Of Space and Aetheric Mechanics, a retro-punk future of the past where spaceships still belched smoke and arguments were still settled with laser pistols. Grounded space pilot Mary Raven has come to the interzone settlement in the middle of Ignition City, Earth's last spaceport, to recover the effects of her dead father - or so people think. Mary really wants to know how he died, and who did it. And if she finds that out, she's going to spoil the rackets of a great many people, and maybe uncover a deadly secret that's worth ray-gunning her down to protect! Ignition City is an on-going color epic told in five issue series featuring the art of Aetheric Mechanics Gianluca Pagliarani and launching with a Regular and Wraparound cover by Pagliarani, a painted cover by Felipe Massafera and a rare Design Sketch cover by Pagliarani!
