

The Dark

Christy Barnett is sleeping when her aging German shepherd Molly growls into the darkness outside her bedroom. She wakes to a dim glow provided by her Kindle screen, thankful that she had fallen asleep while reading again. The power has gone out, the world outside her window is eerily dark and silent. And Molly is wary of something that waits in the hallway, hiding in the shadows. A dark cloud has fallen over the city of Aberdeen, MD. The population disappears in an instant. For the handful of survivors, those lucky enough to have a light source not connected to the power grid, it's more than terrifying. They're left alone, walking through a nightmare, and that is a fate that could be worse than death itself. The darkness is alive and it is the reason we fear the night.
