

New Trends in Fuzzy Logic II: Proceedings of the Wilf 97 - Italian Workshop on Fuzzy Logic, 1997 Bari, Italy, 19-20 March, 1997 (No. 2)

This text includes most of the results obtained by Italian researchers in fuzzy logic. It contains selected papers from the 1997 Italian Workshop on Fuzzy Logic (WILF 97). It covers the mathematical foundations of fuzzy logic, neuro-fuzzy systems, and hardware implementation of fuzzy logic controllers, and gives an update on applications to control, physics, decision support systems and pattern analysis.
