

Last Days of the Condor: The sequel to the book behind the Hollywood blockbuster, Three Days of the Condor

The new novel from James Grady, the bestselling master of intrigue (- John Grisham). Sequel to Six Days of the Condor the book that became the hit Hollywood film, Three Days of the Condor, starring Robert Redford. Look in the mirror. You're nobody. You know pursuing the truth will get you killed. But you refuse to just fade away. You've been designated an enemy of the largest secret national security apparatus in America's history. All assassins' guns are aimed at you. And you run for your life, branded with the code name you made iconic: Condor. Last Days of the Condor is a breakneck, ticking-clock saga of America on the edge of a startling spy world revolution. Set in the savage streets and Kafkaesque corridors of Washington DC, Last Days of the Condor is shot through with sex and suspense, secret agent tradecraft and full-the original. Due to its age, it may contain imperfections such as marks, notations, marginalia and flawed pages. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving, and promoting the world's literature in affordable, high quality, modern editions that are true to the original work.
