

Joni, Underway

Nineteen year old Joni Monday is loving life as an adult-living on her own, dealing with grown-up things like jobs and hook-ups and doing her own laundry. Best of all: after finishing her first year at ASU, she will never again be called a freshman. But when her brother is suddenly killed in a car accident, Jonis adult life is turned upside down. Struggling to cope with loss, guilt, and anger-not to mention the meddling of friends and family trying to fix her-Joni is relieved to be presented with an escape in the form of a sailing trip her brother had been planning for months before he died. With her first step onto the sailing vessel Lady Marguerite, Joni plunges into an adventure that will mark the beginning of her real adult life-a journey across the ominous dark blue of the Atlantic Ocean with a small, eccentric crew, and the young Captain Reid, whose gorgeous looks are only outmatched by his talent for care and kindness. Unfolding through the ups and downs of life at sea is an unforgettable story reminding us that love will always be a work-in-progress and coming of age never gets old.
