

Kaleidoscope: A Psychological Thriller

This title can be read for FREE on Kindle Unlimited! KDS is the hottest new drug on the market, providing the user with harmless artificial memories. But take too much, and the line between fiction and reality begins to blur... Awakened one morning with no memory of the past 24 hours, Keri Crawford finds herself running for her life, embroiled in a conspiracy linking her to the assassination of a high-profile senator campaigning to decriminalize the popular new mind-altering substance. On the run with a disgraced detective, Keri fights to survive relentless attacks from gun-toting mercenaries looking to take her out, all while wrestling with the frightening notion that she might have been involved in the senator's death after all. Who can you trust when you can't trust your own memories?
