

GUD Magazine Issue 1

Issue 1 comes to life with Darby Larsons Electroencephalography where an experiment in robot-building goes terribly awry. And if youve ever woken up with an unexpected physical deformity?say, an arrow in your heart?youll truly enjoy the next story. Theres also a smattering of flash fiction and psychedelia; a straight-out story where things arent what they seem, poetry that takes you from the perverse to the sublime, some magic realism, science fiction, and a few letters to another species thrown in for good measure. We havent forgotten those of you with a literary bent. In addition, the artwork in this issue is particularly strong, with oil paintings, watercolors, photography, and photo illustrations complementing the words with which they are paired. Please let us know what you think of Issue 1, and thanks for reading GUD.
