

Love Plus One

Shannon McKenna is a shy production assistant with big dreams and even bigger phobias, most of which relating to her double-digit figure. She coasts along quite comfortably in the Shadows, where she lives vicariously from her fingertips as an aspiring writer. When a nefarious coworker steals her idea for a hot new dating reality show, she and her best buddy, Jake, concoct an idea to star in this newest production, where they can control it from the inside out. There would be a house full of traditional bachelorettes, and Jake would be the bachelor out to win their hearts, with Shannon portraying the mole to weed through the pack to find the right girl for her BFF. Rather than the typical, superficial hookup game of dating shows past, however, handsome, hunky Jake will eventually choose everygirl Shannon, giving the country a true underdog to champion and putting an entirely new face on love. The problem? The more they fake their relationship, the harder Shannon finds herself falling for real. She realizes that she is head over heels for her best friend just in time to fight twenty other women for his heart. Love Plus One is the first of Ginger Voights Rubeneseque romances, written for any girl who thought she had to change to win the man of her dreams. Adult content intended for readers 18+.
