

Mottled Dawn

Many of us know how the partition of India and Pakistan came about. However, there are several other stories that took place during that time that we need to be aware of. There are several tragedies which have not received as much importance as the partition itself. The book is a collection of unforgettable stories put together as Saadat Hasan Manto's most powerful pieces. It is based on the Partition of the subcontinent into India and Pakistan in the year 1947. The book contains many stories like Toba Tek Singh, The Return, The Assignment, Colder Than Ice and many more. All these stories come alive to put forward the most tragic events in the history of the subcontinent.
