A pulse-pounding page-turning mystery suspense thriller, with twists and turns that keep you guessing until the very end. In the novel Murdering Lawyers you will find Marc Wilson, a jobless young attorney, once idealistic but now willing to bend a few rules to help his career. After a few minutes of dishonesty begin paying shocking dividends, he becomes a litigator at a prestigious international law firm, finds himself living in a luxury apartment, and enters into a romantic relationship with the boss's daughter - but not without paying a heavy price. Soon he is caught up with an ancient cabal committed to bringing the most unspeakable evil into the world, and he must find a way to defeat these forces or face the death of everything he loves. A creative, diabolical, and cool thriller - so spellbinding that I just had to stay up and finish reading it to make sure that the main character made it through the night.
