

Her Sexy Side

Kiera loves her new eroticism, but would her desire exist without his art? Max Winters and Kiera Long may have never discovered their interest in one another if it weren't for fate. One of Max's erotic drawings winds up in Kiera's hands, and even though she's shocked, the conservative teacher can't help but be intrigued. She wants to explore these untamed parts of herself, and who better to join her in this discovery than Max? As their relationship develops, guilt eats at Max. He can infuse his drawings with persuasion and knows he has to come clean with Kiera if there's ever a chance for them to remain together. When Kiera discovers the secret behind Max's drawings, she's crushed. Now, how far will she go to find out if she can be sexy without Max, or is this even possible?
