

## Millennium People

The explosive J. G. Ballard renaissance, which began with the 2009 publication of *The Complete Stories of J. G. Ballard*, now continues with his first novel to be published in America in a full decade. Wonderfully warped, darkly comic (*The Economist*), *Millennium People* tells the story of David Markham, a psychologist who is searching for the truth behind a bomb that exploded on a Heathrow baggage carousel, killing his ex-wife. Infiltrating a shadowy protest group responsible for her death, David finds himself succumbing to the charismatic charms of the group's leader, who hopes to incite a violent rebellion against the government by his fanatical adherents, the spiritually and financially impoverished members of Britain's white middle class. A shockingly plausible and extremely unsettling vision of society in collapse, *Millennium People* dissects the perverse psychology that links terrorists with their innocent victims (*New Statesman*).
