

Paint Me Gone (Gen Delacourt Mystery Book 3)

Private Investigator Genevieve Delacourt is hired to find a missing sibling, but the search is complicated by two things: the woman supposedly committed suicide twenty years before, and she was the only suspect in a strangers murder before she disappeared. Client Sophie Keene revives the case when an unsigned painting turns up that depicts her sister in unmistakable detail. In need of help, Gen turns to one-time romantic interest SFPD Detective Mackenzie Hackett and his insider access to the cold case file. As Gen unravels the mystery the threads of her complicated romantic life fray out of control, and she is forced to confront her feelings about Mack and their unresolved past. What readers are saying: This is a series I seriously could not put down ... Gen Delacourt is, so far, my favorite. I love her snarky attitude, her realism, and the way she looks at the world. If you like mysteries with some humor thrown in, as well as truly not knowing who the culprit is until the end, this is the series for you! I've just started the 4th book and although I really do have to get some sleep, tomorrow I will be glued once again to the book, until the end! Thoroughly enjoyable. PI Gen Delacourt is at it again. It seems she has only one speed; and that's wide open. And she doesn't know what fear is ... This is a story about artists and convoluted family relationships; it's about how the past is so often still part of our present no matter how long ago it may have been. Whoooo Wheeeeeeeeeeee! Great author - great book! Well done, Ms. Greene! I enjoyed this book very much. The story was interesting with enough twists and turns to keep you turning pages. It is very well written. The characters are believable as real people.
