

## Presence: Wolf Moon

A rogue werewolf threatens the safety of Port Orchard, Washington, but all Mina Jewel can think about is the sudden flood of unrelated missing children cases. Between her private eye gig, a rash of unexplained and debilitating health issues, and her duties to Presence--an underground society of psychic investigators and practitioners--Mina barely has time to deal with her screwed-up private life. Time is running out for the little ones, and Mina knows it. Frustrated with her lack of leads, Mina becomes careless, endangering Presence and thrusting herself into a war between Lycans she doesn't trust and the people who fear, hate, and hunt them. Now Mina must decide who to side with, knowing if she chooses wrong, the missing children won't be the only ones to lose.
