

Rescue in the Smokies (Durham Wolves)

Only one will win the right to call her mate. Durham Wolves, Book 1 Sergius Durham and his brothers are legendary trackers in these parts, and only the local sheriff knows why. They're wolf shifters, attempting to live quietly on their horse farm. A difficult task when they're summoned every time a hiker goes missing. Serg knows there's something different about his latest case the moment he touches her left-behind clothing. She is his mate, and nothing will stop him from finding and claiming her except maybe the repeat-offending nuisance of a vampire who lured her off the trail. Julianna Polanski isn't sure how she got so lost, but there's no mistaking her instant attraction to her rescuer. No denying the passion that explodes between them when rain drives them into a cave for shelter or at his home, in his bed, even after the crazy, improbable truth of his heritage comes out. Yet Serg knows the danger isn't over. At any moment Julianna could be kidnapped right out of his arms by the only creature the Durham brothers have never been able to track. Warning: This book contains hunky shape-shifters living in the mountains, hot steamy sex in caves, mind-blowing oral, mild bondage, and wild abandonment in front of mirrors.
