

ROYAL BRIDE (A Billionaire Bad Boy Romance) (Royal Billionaires Book 2)

Modern day Princess Isabella always thought she would marry a prince who would worship her forever. But she was dead wrong. Antonio, her fiancé, is no prince charming and he isn't ready to give in to her silly whims. Isabella grew up a spoiled brat, waited on hand and foot, expecting nothing but love and affection when she did get married. But even princesses don't always get lucky. When her brother's engagement is broken off, Isabella finds herself in a twenty-first century arranged marriage, supposedly to keep the family riches and power intact, but one that holds no promise of love and affection for her. Antonio has seen Isabella at her worst and he is ready to tame her. Antonio is not one to chase after women and is not prepared for Isabella's need to have her own way with everything. Rules were set in place for a reason and not even his bride, Isabella, had a right to disregard them. But Isabella is used to having her way, something Antonio is not familiar with. But she is also prone to danger and it is his job to protect her because he needs her. Not the way she wanted him to, but the way he knew how in his bedroom, sexy and always ready for him. This is the second book in the ROYAL series, however, it's a standalone book with a HEA and no cliffhangers! The first book is ROYAL WEDDING.
