

Sapphire (The Shielded Realms Book 1)

A cursed world, and a dark unicorn with an even darker secret Sixteen is supposed to be a special day for most young girls, but Shawna's sweet sixteen turns into a night of terror. After she overhears her parents having a strange and chilling conversation about things coming for her, she plans to run away, but before she can monstrous creatures come scratching at the door. In her last desperate moments, a powerful black unicorn comes to her aid, taking her away to a fantastical realm of magic, danger, and mystery. She wakes to find herself at the mercy of a sassy old witch, a quirky fairy who's allergic to her own fairy dust, a fierce unicorn unlike the kind found in fairy tales, and a world of beauty and nightmares; a world, she discovers, that is not only her own, but is unraveling from an ancient curse. The truth of the curse, and of the shattered sapphires, will take Shawna and her companions on a thrilling adventure through the dreamscapes of the five Shielded Realms. But within the last realm, the unicorn is hiding a dark, and terrible secret.
