

## Close to the Bone (A John Becker Novel)

His grandmother cant go downstairs any more, so Brade brings his victims to the basement. It has all the modern conveniences pipes fitted with chains, a table to hold his knives, a drain to wash away the blood. It even has a secret exit, for the inevitable day when justice comes to call. But when the bell rings for Brade, it isnt justice its his conscience, in the form of FBI agent John Becker. More than any other cop, Becker understands what goes on in a serial killers mind, and he comes to exact vengeance in blood. An icepick-wielding assassin is loose in New York City, and his target is Yasser Arafat. Bury his icepick in the Palestinians ear, and the Mideast will descend into chaos unless Becker can get the killers scent in time to bring him down.
