But this time it's serious. The Sanitation and Cleansing Technicians (a.k.a. the cleaners) have only just recovered from an invasion of bug-bots. A swarm came through the ventilation systems and took over the office building. The team thought they had defeated the mini-bots but now the mayhem is only just beginning. Chaos reigns through the night on all floors of the office building. A hacker called The Ghost is doing battle against Jet, a Goth tech-girl, on the 6th floor. On the 22nd floor, Hilary and Steve are waging chemical, magnetic, and electrical war against a techno-mould in the female toilets. And, on the 11th floor, with Pink, the Post-Modern Neo-Punk, in his earpiece, Joe is battling with the bigger, badder bug-bots in the canteen. The Sanitation Technicians are soon to discover a secret about a new generation of computing. The only question is: what does this mean for the universe? The Assistant is humorous cyberpunk at its most compelling. Ian Whates throws us among the true heroes of a corporation: the cleaners.
