

## Skorpio

A ghost who only appears under a blazing sun. Vaughan Beadles, Professor of Anthropology at Creighton University, is at the top of his game. Married to the beautiful Betty, with a baby son, Beadles has just taken possession of the largest uncatalogued post-Anasazi Indian collection in the world. Creighton has long maintained the existence of the Azuma, a previously unknown and extremely belligerent southwest Amerindian tribe. When a scorpion crawls out of a bowl and stings Beadles student, his world turns upside down. The university charges Beadles with theft and the police charge him with homicide. He loses his job, his wife, and his future. Beadles only chance at redemption is to prove the Azuma existed, setting him on a path that will inexorably lead to a terrifying confrontation in the desert with a creature beyond belief.
