

Active Shooter (Our Cyber World Book 3)

A photographer stops a terrorist attack to become an active shooter of a different kind... Andre Esperanza thwarted a terrorist attack, but he wants none of the hero status that comes from it. He certainly doesn't want the fame. Unfortunately, a pushy reporter keeps asking him questions. How could a photographer dispose of six heavily armed assailants? What training and covert experience enable him to act so decisively? He relents to her insistent prodding and gives her an exclusive interview, facing the choice he didn't want to make. Somehow he must convince her to stop digging into his background before his present and his past become one.
