

Smoke & Mirrors (Brainrush Series) (Volume 5)

The exciting conclusion to Brainchild, Book-4 of the Brainrush series. The first three books in #1 Wall Street Journal bestselling author Richard Bards Brainrush series garnered over 2,000 Amazon 5-Star reviews, setting the stage for the continuing story spanning three continents and two more books. With Brainchild (Brainrush 4) called a high-speed thriller that ignites pages with scenes of action and suspense by Kirkus Reviews, and Smoke & Mirrors (Brainrush 5) named best book of the year by IndieReader.com, this mind-gripping adventure is sure to capture the imagination long after the final heart-stopping chapter. A gifted boy forced to grow up too fast... A father who will do anything to protect him... A madman bent on destroying them both. In Amsterdam, a visionary scientist is laying the groundwork for a cybernetic life-extension project that will transfer individual consciousness to a personalized avatar. Halfway around the world, his brilliant grandson is secretly planning to use the same technology to infiltrate the worlds most secure networks. But the scientific advances necessary to perfect the brain-to-computer interface are slow in coming, too slow for the aging founder of the Everlast foundation who may die before realizing his dream of immortality and too slow for his ruthless grandson, who will stop at nothing to attain the recognition that is his birthright. Caught in the middle are Jake Bronson and his seven-year-old son, Alex, whose combined mental gifts might provide the key to leapfrogging the impasse. When Jakes family and closest friends are simultaneously abducted in a globally coordinated kidnapping scheme, Jake is thrust into a frantic race that takes him from the canals of Amsterdam and the cobbled streets of Rome to the back alleys of Hong Kong and the South China jungles, where he must lever every scrap of his failing abilities to rescue his loved ones and crush a madmans plans to bring the

world to its knees.
