

Speaking of the Devil (Days of New Book 1)

Set in the same world as Meg Collett's bestselling End of Days series comes the serial spin-off series, Days of New. Clark St. James, self-professed man-candy with pink hair and duct-taped boots, didn't ask to be the leader of the Nephilim clans or to have ancient angel magic contained in the unwanted tattoos on his arms. And most importantly, he didn't ask for the holy angels to get their panties in a twist and ravage the earth during an angel civil war. Instead, Clark is making lemonade out of life's lemons. With vodka. And a splash of whiskey just because. It's up to the Descendants of Enoch, an order of humans meant to protect the holy angels while on Earth, and Clark's Nephilim to set this destroyed world back on its axis. The angels in Heaven are busy repairing their city and rebuilding a new form of democracy. In Hell, everyone is adjusting to a new form of leadership after Clark killed Lucifer, prince of the fallen. Technically, it was an accident. But people keep forgetting that. Just when things were beginning to get boring, someone starts murdering Descendants in very unique ways. Ways that incriminate Clark. But there's always a calling card beside the bodies: a single burnt black feather. And Clark only knows one fallen angel that got crispy fried. Apparently Lucifer is back. And he's pissed off. *Days of New Reading Order* Speaking of the Devil Full of the Devil Better the Devil You Know Devil in the Details Give the Devil His Due The Days of New: The Complete Collection is also available!
