

Steam Dogs

A CONSPIRACY OF MAGIC Set in an alternate 19th-century Britain, master thief Simon Atters, his best friend Captain Arvel Paretti and his airship the *Colibri* arrive on the Isle of Dogs for the Queen's airshow. The Brits are looking for an air navy, and Simon and Arvel are looking to win the royal purse—one way or another. Not even Roman Greenslade, the clever police inspector, can deter them. But a beautiful woman and a sinister conspiracy against Queen Victoria disrupt all their plans... From the Charge of the Light Brigade in Turkey, to the mountains of central Europe, to the Isle of Capri, this story explores a world where magic is wielded as the weapon of ultimate destruction. Fans of historical fantasy, steampunk, and alternate history will enjoy this book.
