I know then that Im not going anywhere...Sean is on the run. We dont know why and we dont know from whom, but we do know hes abandoned his battered, blood-stained car in the middle of an isolated part of rural France at the height of a sweltering summer. Desperate to avoid the police, he takes to the parched fields and country lanes but his leg is caught in a vicious animal trap. Near unconscious from pain and loss of blood, he is freed and taken in by two women - daughters of the owner of a rundown local farm with its ramshackle barn, blighted vineyard and the brooding lake. And its then that Seans problems really start... This nail-shredder of a thriller - like the fiction of Nicci French or Gillian Flynn - holds you from the beginning, tightening its grip as the story unfurls and shocks you with its final twist.
