

The Complete Stories of Morley Callaghan: Volume Two (Exile Classics series)

Eighty-five stories by one of Canada's greatest writers are collected in this four-volume anthology. Several pieces of Morley Callaghan's short fiction are collected here for the first time, while some which have been out of print for decades are now made available. Each volume contains a section providing the year of publication for each story, a question-and-answer section, and comprehensive editorial notes. As a whole, this series is essential reading for understanding the growth and importance of Canadian literature.
