1520: As the Aztec Empire burns to ash at
Hernan Cortes's feet, in another part of the
country a great treasure lies hidden in a
sacred place watched over by its keepers.
Throughout the land, a strange legend has
long told of an ancient people dwelling
deep within the jungle whose possessions
include a precious set of stones with the
potential to bring unlimited power to its
owner. As well as wealth beyond their
wildest dreams ...1904: In an old graveyard
in a remote part of the Isles of Scilly, a
distinguished academic makes a surprising
discovery. The inscriptions on the
gravestones are unlike any he has ever
seen, at least in that part of the world. The
clues point to an astounding possibility. A
forgotten Spanish legend. And a
four-hundred-year-old cover-up!Present
Day: History lecturer Dr Ben Maloney is
sitting in his office when the phone rings.
A call from his cousin is rarely anything
out of the ordinary, but today what he has
to say is anything but normal. Their
great-great-grandfathers' body has been
discovered in a boat near a deserted island
in the Isles of Scilly. With a bullet through
his skull!Dropping everything, the cousins
decision to visit the site of their ancestors
demise soon proves to be one that will
change their lives forever. With nothing
but a hundred-year-old diary and legends
from the past to guide them, Ben soon
realises their quest to solve the riddle of
their ancestors' death will require them to

take on an altogether greater mystery that will lead them not only halfway across the world delving deep into humanity's bloodiest past but potentially to their own deaths. An unimaginable treasure remains undiscovered - one with the ability to change the world for better or worse. And some will stop at nothing to find it ...
