Occasionally the art of narrative may be improved by borrowing the method of the movies. Another night has passed, and we are called upon to imagine the watery sunlight of a mild winter afternoon filtering through bare trees on the heads of a multitude. A large portion of Hampton Common is black with the people of sixteen nationalities who have gathered there, trampling down the snow, to listen wistfully and eagerly to a new doctrine of salvation. In the centre of this throng on the bandstand--reminiscent of concerts on sultry, summer nights--are the itinerant apostles of the cult called Syndicalism, exhorting by turns in divers tongues.
