From the bestselling thriller author of *The Golden Crystal* and *The Depths*, *The Enigma Strain* is the best of both worlds: a nonstop terrorism in America plot that will take you on a wild ride around the nation, combined with characters you'll fall in love with! An action-packed thrill ride for armchair travelers, For fans of Dan Brown, James Patterson, Clive Cussler, Douglas Preston & Lincoln Child, Jeremy Robinson, James Rollins, and Andy McDermott, you'll be a fan of *The Enigma Strain* When a bomb goes off at Yellowstone National Park, threatening the stability of the world's largest active volcano, the reclusive park ranger Harvey Ben Bennett is startled to realize that the blast itself wasn't the only threat: the bomb released a virus into the air, and the outbreak is beginning to infect and kill more and more people. Ben teams up with Juliette Richardson, a driven CDC agent working inside the newly-formed BTR (Biological Threat Research) team, to find the people behind the act of terrorism. When the attacks get personal, Ben and Julie take it upon themselves to seek out and destroy the threat before it's too late. A race across the United States, chasing terrorists, dodging bullets, and escaping the threat of a deadly virus outbreak and military apocalypse... ...this is not an action thriller novel you'll want to miss...
