

A yacht is close to sinking in a gale in the English Channel. Her problems have sinister overtones. Motives for what seems to be a murderous attack on one of the four people aboard are increasingly difficult to unravel. Industrial espionage and clashes between two powerful, beautiful women are manipulated with dry humour by a shadowy figure from the 'old' underworld. Paedophilia and madness lurk in the background of a story that explores pressure under the spotlight of international data security. Henley Royal Regatta, Poole Harbour, and the Solent provide backdrops for the action that moves rapidly from averted to real disasters. Henry McLean, who features in George Brown's first novel 'Smash and Grab', is the rock among fractured personalities agitated by violent death. He joins 'The Fat Frog', a man never quite what he seems, on the Somme battlefield for an expose building towards the climax. In this, Italian and Welsh genes battle for supremacy in a struggle of vengeance over humanity. Hero, George Brown's second novel, draws on his experience in international business and his observation of stop-at-nothing attacks on intellectual property.
