

## Greg Iles CD Collection 2: Mortal Fear, Spandau Phoenix, The Footprints of God

Mortal Fear: By day, Harper Cole trades commodities over the internet. At night, he is systems operator of E.R.O.S., an exclusive, sexually explicit online service. But now someone has penetrated E.R.O.S.'s state-of-the-art security...someone who has brutally murdered six celebrated women. For Harper Cole, who has suddenly become the prime suspect, there is only one way to lure the elusive madman into the open. His daring plan will place everything and everyone he loves in the path of a brilliant, unstoppable killer... Spandau Phoenix: The Spandau Diary - what was in it? Why did the secret intelligence agencies of every major power want it? Why was a brave and beautiful woman kidnapped to get it? Why did a chain of deception and violent death lash out across the globe, from survivors of the Nazi past to warriors in this new conflict about to explode? Why did the world's entire history of World War II have to be rewritten as the future hung over a nightmare abyss? The Footprints of God In the heart of North Carolina's Research Triangle, America's top scientists work around the clock to attain the holy grail of the twenty-first century - a supercomputer that surpasses the power of the human mind. As ethicist to Project Trinity, Dr. David Tennant finds himself in a pressure cooker of groundbreaking science and colossal ambition. When his friend and fellow scientist is murdered, David discovers that his own life is in danger.
